(For: Medical, Dental, Veterinary, Osteopathic Medicine, Pharmacy,
Chiropractic Medicine, Optometry, Podiatry and Physician Assistant)

All Requirements to Graduate

Anthropology Health Emphasis, General Ed. & Bachelor Degree Requirements

ANTHROPOLOGY MAJOR REQUIREMENTS:	COURSE NUMBER [G.E. & Bach]	HOURS	SEMESTER	GRADE
				<i>All C or better</i>
STATISTICS:	Choose One:	ECON 3640, FCS 3210, PSY 3000, SOC 3112, MATH 1070, MATH 3070 [QB] & many [QI], others w/approval	3-4	
ANTHROPOLOGY:	Required:	ANTH 1010 [BF]	3	
	Choose Two of Four:	ANTH 1020 [SF]	6	
		ANTH 1030 [BF] (Archaeology)		
		ANTH 1050 [SF]		
		ANTH 1070		
	Anth as a Major & a Career:	ANTH 3001	1	
	Two HE Topical Requirements: Plus one of the following:	ANTH 4252 (Human Biology)	3	
		ANTH 4133, 4234, 4291, or 4450	3	
Two Geographical:	ANTH 3111-3961 2 [DV]; 10 [IR]	6		
Three HE Topical Electives: (In addition to above courses)	ANTH 2221, 3211, 4130, 4133, 4183, 4193, 4231, 4271, 4272, 4291, 4334 [QB/QI], 4461, 4470, 4481, 5221 [QI]	9-12		
Allied Hours: List courses required for the pre-professional program you are applying to. If not applying to a pre-professional program, discuss allied course options with the Anthropology advisor, to include at least 3 courses in the natural sciences plus 2 or more other recommended courses from the approved list in the packet.	Natural Science Allied Courses:		varies	
	Three , 3 credit courses from: Biology, Chemistry or Physics		varies	
			varies	
			varies	
	Two HE Allied Electives:	HSP 5000 (Capstone) Strongly Recommended	6-8	
		FPMD 4500 (Public Health: Global Perspective		
		FPMD 5005 (Intro. to the Medical Profession)		
		Philosophy 3520 (Bioethics)		
Sociology 3671 (Sociology of Health)				
Sociology 3673 (Social Epidemiology)				
Any 3 credit courses from:	BIOL, CHEM, PHYS, PSYCH, NUTR	varies		

***All major hours must be completed with a min. of C grade.**

Major Hours: 34-38; Allied Hours Vary

GENERAL and BACHELOR DEGREE REQUIREMENTS:

GENERAL EDUCATION REQUIREMENTS:

		<u>COURSE</u>	<u>HOURS</u>	<u>SEMESTER</u>	<u>GRADE</u>
American Institutions [AI]	(D- or CR)				
Writing 2010 [WR2]	(C-, Letter Grade)				
Quantitative Reasoning A [QA]	(D- or CR)				
Quantitative Reasoning B [QB]	(D- or CR)				
Fine Arts [FF]	(D- or CR)				
Fine Arts [FF]	(D- or CR)				
Humanities [HF]	(D- or CR)				
Humanities [HF]	(D- or CR)				
Physical/Life Science [SF] (Fulfilled with Major & Pre-med)	(D- or CR)				
Physical/Life Science [SF] or Applied Science [AS]	(D- or CR)				
Social/Behavioral Science [BF] – waived w/major in CSBS	(D- or CR)	WAIVED	--	--	--

BACHELOR DEGREE REQUIREMENTS:

		<u>COURSE</u>	<u>HOURS</u>	<u>SEMESTER</u>	<u>GRADE</u>
Upper Division Writing/Communication [CW] (no ANTH)	(C- or CR)				
Diversity [DV] (2 ANTH Avail, C or better)	(C- or CR)				
International [IR] (many in Major, C or better)	(C- or CR)				
FOR BA ONLY– Language Proficiency (4 semesters-16 hrs)	(C- or CR)				

OR

FOR BS ONLY – 2 Quantitative Intensive [QI] (3 Avail in major, C or better)	(C- or CR)	1.			
		2.			

General Ed & Bachelor requirement credit hours Total: 45+, unless double counting

*Min.Hour requirement: 122 *Upper Division Hour requirement (3000 or above):40. *All major hours must be completed with a C grade or better* & an overall GPA must be a min of 3.0

Anthropology Major with Health Emphasis

<http://www.anthro.utah.edu/undergraduate-study/health-emphasis-track.html>

Why Anthropology?

Students with a broader perspective are now in demand by health professional schools nationwide. A recent Newsweek article (attached) summarizes this trend by saying that “medical educators are looking beyond biology and chemistry majors in the search for more well-rounded students who can be molded into caring and analytic doctors.” This perspective is shared by the University of Utah School of Medicine Office of Admissions and by other health professions schools in Utah and nationwide.

The Anthropology Major with Health Emphasis is designed to meet this need. The program satisfies the curricular requirements of medical and other health-related professional schools while at the same time educating students about the interactions between biological, environmental and social factors influencing health and illness, and human adaptation and maladaptation from an evolutionary perspective and the effect of culture on health.

“My education in Anthropology [at the University of Utah] was a superb preparation for medical school. It provided a perspective on human behavior that encouraged a deeper understanding of how health and disease are created, influenced and ultimately treated...The added skill of integrating [basic science] knowledge with human behavior made me a very attractive candidate for the admission board at the University of Utah School of Medicine. It was an attribute that helped me stand out from the crowd seeking admission at that time.”

-John Dodson, M.D.

WELL-ROUNDED DOCS

That’s the goal as medical schools seek out and admit more non-science students. English majors welcome. Below is a quote from a Newsweek article by Sarah Cliff that provides more insight.

Even as breakthroughs in science and advances in technology make the practice of medicine increasingly complex, medical educators are looking beyond biology and chemistry majors in the search for more well-rounded students who can be molded into caring and analytic doctors. “More humanities students have been applying in recent years, and medical schools like them,” says Gwen Garrison, vice president for medical-school services and studies at the Association of American Medical Colleges. “The schools are looking for a kind of compassion and potential doctoring ability. This makes many social-science and humanities students particularly well qualified.”

Program of Study (Students Declaring the Major for the 2014-2015 Academic Year or Later)

The health emphasis track has two components:

- (1) Core courses that must be taken by all students in the health emphasis track. These will also satisfy the requirements for the bachelor's degree in Anthropology.
- (2) Allied courses may include courses required for medical school or for another health professional school or in the physical sciences and related fields. See the following pages for the program that you intend to follow and consult with the appropriate advisor to determine what prerequisites you need to take. At least three courses must be taken in Biology, Chemistry or Physics, plus 2 other courses from a specified list (see below).

Anthropology Health Emphasis Core Requirements

Updated 10/2014

All courses must be completed with a "C" grade or better and one must have a minimum overall GPA of 3.0

All courses are 3 credit hours unless otherwise indicated. Pre-reqs are in *(italics)*.

All Anthropology Majors Must Take:

Introductory Anthropology: 3 courses (9 hrs)

1010 Culture & the human experience [BF]

PLUS any two of:

1020 Human origins: evolution and diversity [SF]

1030 World prehistory: An introduction [BF]

(Arch)

1050 The evolution of human nature [SF]

1070 Introduction to Linguistics in Anthropology

ANTH 3001: 1 course (1 hr)

Anthropology as a Major and Career

Geographical area courses: 2 courses (6 hrs)

Any **two** of Anthropology from 3111-3961

Several fill DV and IR Gen ed requirements.

Health Emphasis Majors also Take:

Medical Anthropology: 2 courses (6 hrs)

4252 Human Biology (required of all students)

PLUS one of:

4133 Maternal and Child Health (*Jr/Sr*)

4234 Genes, Health, and Human History

4291 Evolution of Human Health

4450 Biology of Human Growth & Development

(courses not chosen from this list may be used towards the elective section below but do not double count)

Electives: 3 courses (9-11 hrs)

Three courses from the following list

(in addition to above):

2221 Birth, Death and Populations

3211 Biology of Native Americans

4130 The Anthropology of Food (*Jr/Sr*)

4133 Maternal and Child Health (*Jr/Sr*)

4183 Sex and Gender: Biosocial Perspectives

4193 Medical Anthropology

4231 Social Consequences Human Biol Diversity
(1020, 1050 or BIOL 1000)

4271 Human Osteology (*4*)

4272 Forensic Anthropology (*1020*)

4291 Evolution of Human Health

4334 Population Issues in Anth [QBQI]

(Math 1030)

4461 Behavioral Ecology and Anthro (*1050*)

4470 Evolution of the Family

4481 Evolutionary Psychology

5221 Hum Evo Genetics (*4*) [QI]

(Jr/Sr, Calc, Ecol/Evo)

Statistics: 1 course (3-4 hrs)

ECON 3640 (*3 hrs*) [QB] FCS 3210 (*4 hrs*) [QB,QI]

PSY 3000 (*4 hrs*) [QB,QI] SOC 3112 (*4 hrs*) [QB,QI]

MATH 1070 (*3 hrs*) [QB] MATH 3070 (*4 hrs*)

ANTH 5230 (*4 hrs*) [QI] [QA,QB,QI]

Other statistics courses may be substituted with permission of student's advisor.

Total Core Hours: 34-38

Allied Hours: At least five courses meeting pre-health professional school prerequisites from the following list of courses:

Allied Hours (minimum 5 courses)(all courses must be at least 3 credit hours):

Students should meet with a Pre-Professional or other advisor to determine which courses they will need to take to meet the prerequisites for the program to which they wish to apply. Many of these courses can count as Allied Hours towards the student's major. Links to the prerequisites for various programs are provided on the following pages. Regardless if the student is applying to a professional school or not, the following minimum Allied Hours must be taken in order to graduate with the Anthropology with Health Emphasis major:

Choose **any 3 courses** from:

Biology, Chemistry and/or Physics

Plus **2 more electives** from any of the following:

Strongly recommended:

HSP 5000 Health Society & Policy Capstone

Other options:

Biology (any course not used above)

Chemistry (any course not used above)

Physics (any course not used above)

Psychology (any course)

Nutrition (any course)

FPMD 4500 (Public Health: A Global Perspective)

FPMD 5005 (Introduction to the Medical Profession)

Philosophy 3520 (Bioethics)

Sociology 3671 (Sociology of Health)

Sociology 3673 (Social Epidemiology)

For information regarding prerequisites for any of the programs listed below, please consult with the Pre-Professional Advising office.

Requirements for admission to health professional schools go beyond course work, and include extra-curricular activities, voluntary service, leadership, research, patient shadowing (following doctors around to see what they do), and patient exposure (direct interaction with sick people). See the links below and consult with the Pre-Professional advisors to make sure you meet all the requirements needed for your program of interest.

Pre-Professional Advisors:

Mayumi Kasai (mkasai@uc.utah.edu)

Shelley Nicholson (snicholson@uc.utah.edu)

Anna Chuaqui (achuaqui@uc.utah.edu)

General Email: (ppa@uc.utah.edu)

Room 206, Building 44

801.581.5744 www.ppa.utah.edu

Prep course for MCAT & DAT:

PHYS 3111 Physics of the Human Body II - you do not need to take 3110 to enroll in 3111. Our students have been welcome in the course in the past.

<http://www.physics3111.org>.

Pre-Medical

<http://advising.utah.edu/preprofessional/medical/premed/premd-curriculum.php>

<http://advising.utah.edu/preprofessional/medical/premed/medical-application.php>

Pre-Podiatry

<http://advising.utah.edu/preprofessional/medical/prepodiatry/curriculum.php>

<http://advising.utah.edu/preprofessional/medical/prepodiatry/>

Pre-Physician Assistant

Physician's Assistants practice medicine under the supervision of a physician. They may work closely with physicians, or they may be primary care providers in rural or inner city clinics where a physician is present for only one or two days each week. See the following for more information:

<http://medicine.utah.edu/physician-assistant-program/program/admissions/index.php>

<http://medicine.utah.edu/physician-assistant-program/index.php>

<https://portal.caspaonline.org/>

Pre-Physical Therapy

<http://www.ptcas.org/home.aspx>

<http://www.health.utah.edu/physical-therapy/>

Pre-Pharmacy

<http://www.pharmacas.org/>

<http://pharmacy.utah.edu/>

http://pharmacy.utah.edu/Student_Information/Prospective%20Students/prerx.htm

Pre-Chiropractic

<http://advising.utah.edu/preprofessional/medical/prechiropractic/>

<http://www.acatoday.org/>

<http://www.chirocolleges.org/>

Osteopathic Physician (D.O.)

Osteopathic physicians (D.O.) emphasize primary care but are licensed to practice medicine in all specialty areas. They are similar to MDs but their training and approach emphasize the health of the whole person.

Course requirements are similar to those for other pre-meds, and applicants also take the MCAT. There are no programs in Utah (although many D.O.s practice here), but this may be a good fit for anthropology undergraduates interested in a career in medicine.

Students interested in osteopathic medicine should follow the pre-med sequence above.

The following programs are not advised by the Pre-Professional advising office. See the appropriate department for information regarding prerequisites for those programs. For programs at schools other than the University of Utah, consult the admissions office or advisor for those programs.

NURSING

University of Utah College of Nursing:

10 South 2000 East

Salt Lake City, Utah 84112

801.581-3414

<http://nursing.utah.edu/>

Pre-Nursing Email: info@nurs.utah.edu

The University of Utah College of Nursing has an Accelerated Baccalaureate program for students who already have a bachelor's degree and want to become nurses. They also have education programs leading to a variety of more advanced post-graduate degrees, both research-focused and practice-focused. To enter a graduate nursing program (to become a nurse practitioner, for example) or to earn a practice doctorate in nursing (the DNP), you need a baccalaureate degree in nursing first. Two of the faculty members in the U of U's school of nursing, Lauren Clark and Janice Morse are nurse anthropologists.

Pre-Nursing Information:

<http://nursing.utah.edu/programs/prenursingstudents.php>

Prospective students seeking entry to the baccalaureate program in nursing must attend an information session before making an appointment to meet individually with the Pre-Nursing or Nursing Advisor. See website for dates and times. http://nursing.utah.edu/programs/information_sessions.php

RN-BS Program Information Session

Students interested in the RN-BS program should contact Nicole Brandt, Academic Advisor, for an appointment. Nicole can be reached at 801.581.8487 or nicole.brandt@nurs.utah.edu

Nursing Graduate Degrees:

MS Nursing

MS Gerontology

DNP Doctor of Nursing Practice

PhD Doctor of Philosophy

GERONTOLOGY

The University of Utah has an interdisciplinary graduate program in Gerontology. There are many careers possibilities in this field, some with a focus on health. The U offers both a certificate program and a master's degree program.

College of Nursing:

10 South 2000 East

Salt Lake City, Utah 84112

801.581-3414

<http://nursing.utah.edu/gerontology/>

Gerontology contacts:

Katarina Felsted katarina.felsted@nurs.utah.edu

Arminka Zeljkovic, a.zeljkovic@nurs.utah.edu Graduate Advisor

The University of Utah has an interdisciplinary graduate program in Gerontology. There are many careers possibilities in this field, some with a focus on health. The U offers both a certificate program and a master's degree program.

There are no specific admission requirements, so students interested in pursuing this career path should design an appropriate set of pre-professional courses with the assistance of the gerontology faculty advisors, and get approval from the anthropology advisor.

Certificate program:

<http://nursing.utah.edu/programs/gerontology-interdiscipline.php>

MS Gerontology

<http://nursing.utah.edu/programs/masters-science-gerontology/index.php>

PUBLIC HEALTH

Public health professionals work to promote health and prevent disease in communities. Some areas of specialization within public health include:

- Epidemiology
- Health Education/Behavioral Science
- Environmental Health
- International Health
- Health Services Administration
- Maternal and Child Health
- Public Health Administration and Policy
- Public Health Nutrition
- Public Health Practice
- Biostatistics

Students interested in applying to a program in public health should think carefully about which area they want to specialize in, and then design an appropriate set of pre-professional courses with the assistance of the anthropology advisor and a faculty mentor.

The University of Utah does not have a School of Public Health, but it has a growing program that grants degrees in the field:

Division of Public Health
University of Utah
375 Chipeta Way, Suite A
Salt Lake City, UT 84108
(801) 587-3315

<http://medicine.utah.edu/dfpm/public-health/index.php>

Graduate Degrees:

Master of Public Health (MPH)

<http://medicine.utah.edu/dfpm/public-health/programs/master-public-health.php>

Master of Science in Public Health (MSPH)

<http://medicine.utah.edu/dfpm/public-health/programs/master-science-public-health.php>

Doctor of Philosophy in Public Health (PhD)

<http://medicine.utah.edu/dfpm/public-health/programs/phd/index.php>

Master of Statistics-Biostatistics Degree (MSTAT-Biostatistics)

<http://medicine.utah.edu/dfpm/public-health/programs/master-statistics-biostatistics.php>

Master of Public Health Joint Degrees:

Doctor of Medicine/Master of Public Health (MD/MPH)

<http://medicine.utah.edu/dfpm/public-health/programs/md-mph.php>

Master of Healthcare Administration/Master of Public Health (MHA/MPH)

<http://medicine.utah.edu/dfpm/public-health/programs/mha-mph.php>

Master of Public Administration/Master of Public Health (MPA/MPH)

<http://medicine.utah.edu/dfpm/public-health/programs/mpa-mph.php>

Master of Public Policy/Master of Public Health (MPP/MPH)

<http://medicine.utah.edu/dfpm/public-health/programs/mpp-mph.php>

Master of Social Work/Master of Public Health (MSW/MPH)

<http://medicine.utah.edu/dfpm/public-health/programs/msw-mph.php>

Graduate Certificates:

Public Health

<http://medicine.utah.edu/dfpm/public-health/programs/certificate.php>

Global Health

<http://medicine.utah.edu/dfpm/public-health/programs/certificate-global-health.php>

OCCUPATIONAL THERAPY (OT)

University of Utah Division of Occupational Therapy
520 Wakara Way
Salt Lake City, UT
801.585.9135

<http://www.health.utah.edu/occupational-therapy/>

Kelly Brown, Academic Advisor: kelly.brown@hsc.edu

Occupational therapists make it possible for people with a variety of challenges to function successfully. Faculty in the OT program here at the University of Utah consider Anthropology to be an excellent major for those interested in pursuing this career.

Prospective Students:

<http://www.health.utah.edu/occupational-therapy/prospectivestudents/prospectivemot/index.php>

Students interested in the OT training program at the U must attend an info session! See website for dates.

OTHER PROGRAMS

There are several professional degrees offered by the College of Health. See the following links for further information on graduate training in:

NUTRITION:

<http://www.health.utah.edu/nutrition/degrees/index.php>

Masters in Nutrition Sciences: (Information & Prerequisites)

<http://www.health.utah.edu/nutrition/degrees/masters-nutrition-sciences.php>

Contact: Jean Zancanella: jean.zancanella@health.utah.edu

Coordinated Masters in Dietetics:

<http://www.health.utah.edu/nutrition/degrees/coordinated-masters/index.php>

Contact: Kristine Jordan, program director, kristine.jordan@hsc.utah.edu

Prospective students seeking entry to the Coordinated Masters in Dietetics program are strongly encouraged to attend a Pre-CMP Advising Group Session. If you are planning on attending, please RSVP to brittany.chandler@utah.edu

EXERCISE AND SPORTS SCIENCE:

Contact: Dr. Maria Newton maria.newton@health.utah.edu
